

targeting the installation of rooftop solar systems on one crore households. In addition, REC serves as the nodal agency for the National Electricity Fund (NEF) and is actively aligned with the evolving India Energy Stack initiatives. Earlier, REC successfully discharged its responsibilities as the nodal agency for landmark power sector reforms and electrification programmes, including Pradhan Mantri Sahaj Bijli Har Ghar Yojana (SAUBHAGYA), Deen Dayal Upadhyaya Gram Jyoti Yojana (DDUGJY), and the UDAY scheme.

54EC Bonds: REC has always carved a niche for itself with its innovative and forward thinking ideas. In 2023, the company has unveiled an array of customer centric services for the convenience of its 54EC Capital Gain Tax Exemption Bonds holder including the 'SUGAM REC' mobile app. The idea behind these innovations is to move from customer satisfaction to customer delight.

Social Impact: At the core of REC's business practices, there has been a constant endeavour to balance economic, environmental, and social growth. Through its CSR arm, the REC Foundation, the company has been actively involved in facilitating inclusive growth through projects in areas including health and wellness, women empowerment, rural development, environmental sustainability, training and incubation of sports talent and education among many others. REC has supported over 500 projects in healthcare, sanitation, clean water access, education and skill development, women empowerment, sports and environmental sustainability. Total over Rs.1,600 Crore of CSR funds have been disbursed by REC.

From illuminating rural homes to fostering renewable energy adoption, REC's multifaceted efforts over the past 56 years have been empowering communities, strengthening the economy, and paving the way for a sustainable future. ■

of India's plan, we are according the highest priority to financing renewable energy projects. REC aims to be a leader in this area with a target of about 30% share of business and with targeted loan outstanding of ₹ 3 lakh crore by 2030 (from current ₹70,429 crore) in renewable energy projects such as Solar, Wind, Hydro and pumped storage. The company is also actively pursuing financing new and upcoming technology-based initiatives in the green space such as Green Hydrogen, Ammonia, Ethanol projects. REC has extended financial assistance to RE projects aggregating to approximately 62,000 MW of installed capacity.

Towards a zero NPA company: While REC has ensured steady credit growth, we have been increasingly focusing on the quality of our assets. This is evident

from the fact that REC's net NPA has come down to 0.20% as at Dec'25 from 0.88% as at Dec'24. As remaining stressed assets are under advanced stages of resolution, we are confident to become a net zero NPA company, by end of current financial year.

Nodal agency: REC continues to play a pivotal strategic role as the nodal agency for several key power sector initiatives of the Government of India. At present, REC is the nodal agency for the Revamped Distribution Sector Scheme (RDSS), under which the Government of India aims to install 250 million smart meters across the country. REC has also been entrusted with the implementation of the PM Surya Ghar – Muft Bijli Yojana,
