

WEIGHT LOSS UTOPIA

DAYS AFTER SEMAGLUTIDE, THE MOLECULE BEHIND BLOCKBUSTER WEIGHT-LOSS DRUGS, WENT OFF PATENT IN INDIA, PRICES DROPPED SHARPLY AS MULTIPLE GENERIC VERSIONS ENTERED THE MARKET. WILL THIS LEAD TO WIDER ADOPTION?

BY **NEETU CHANDRA SHARMA**

▶ **India's disease burden is large, with over 101 million diabetics and many who are overweight**

▶ **Cold chain remains a key constraint, as the drug must be stored at 2–8°C, limiting deeper market penetration**

▶ **Adoption challenges persist, with low adherence, limited physician readiness and lack of insurance coverage**
