TIME REIMAGINED

At Watches and Wonders 2026, heritage houses unveil timepieces that redefine precision, prestige, and pure desire

BY SMITA TRIPATHI

PANERAI LUMINOR 31 GIORNI PAM01631

The Panerai Luminor 31 Giorni pushes endurance to extremes with a remarkable 744-hour, or 31-day, power reserve. Developed by Panerai's Laboratorio di Idee in Neuchâtel, it builds on the brand's legacy of high-performance tool watches. The 44 mm case is crafted in Goldtech, a proprietary red-gold alloy enhanced with platinum and silver for durability. Inside, the hand-wound skeleton movement P.2031/S delivers a full month of autonomy, requiring 128 crown turns to wind completely. The watch is water resistant up to 100 metres. Finished with a black alligator strap, this limited edition is restricted to 200 pieces worldwide.

PRICE: \$107,000
