

Galgotias College of Engineering and Technology

Committed to Excellence

With academic brilliance and a successful placement records, Galgotias College of Engineering and Technology is turning dreams into reality

REAL EDUCATION HAS TO DRAW OUT THE BEST from the boys and girls to be educated. Galgotias College of Engineering and Technology (GCET) is committed to do the same by emulating the best pedagogy suited in today's environment with emphasis on alternative activities along with classroom situations. The GCET culture caters to unique package of innovativeness and research to yield high profile provisions for overall growth. The institute aims to provide a collective culture of classroom instructions and external learning involving a real life learning experience towards enriching the right attitude.

The college not only imparts education but promotes all-round development of its students preparing them for successful careers. GCET's academic excellence has revamped the standard of technical education in Uttar Pradesh. The Uttar Pradesh Technical University (UPTU) ranks GCET among the top five self-managed private institutions in the state. The Data Quest-Nasscom survey, 2005, ranked GCET among the top 10 private engineering institutions in India. Affiliated to UPTU and approved by the All-India Council for Technical Education (AICTE), GCET runs several programmes at the graduate and post-graduate levels like B.Tech., M.Tech., MBA, MCA and Ph.D. The National Board of Accreditation (NBA) recognised its B.Tech. programmes in Computer Science, Electronics and Communication Engineering, Electronics and Instrumentation Engineering, and Information Technology in first year of eligibility, this year two new streams of

"I am happy to note that the performance of students of your college / Institute falls in the '**Indigo colour band**' which statistically falls between $\bar{x} + 1\sigma$ and $\bar{x} + 2\sigma$ range, where $\bar{x}$ is the University level average performance in the theory examination and σ is the standard deviation, which is a statistical measure of the spread or dispersion. This performance can be interpreted as '**Very Good**' on the whole. I congratulate the students, faculty and the staff, and management of your Institute/College on this academic achievement."

Prof. Prem Vrat, Vice Chancellor
Uttar Pradesh Technical University

Civil and EEE has also been added in the offerings. The college also offers M.Tech. programmes in Computer Science and Engineering, Information Technology and Electronics, and Communication Engineering.

GCET committed to excellence in education, is a blend of architectural splendor and functional convenience. It has well organized infrastructural and instructional facilities that incorporate lush green lawns providing fresh & pollution free environment, well -equipped classrooms with the latest teaching aids, a unified carefully stocked learning center (library & book bank), state-of-the-art IT resources centre (computer lab.), engineering lab, a well-managed subsidized cafeteria, facilities for indoors and outdoors sports, and separate secure residential accommodation for boys & girls consisting of two-seater well furnished rooms.

Dr. Pardeep Kumar, Dean, Academics, says, "Experienced and proficient faculty play a vital role in building a sound foundation for the career of budding engineers at GCET. To improve the quality of teachers we have initiated a number of faculty development programmes, we encourage them to obtain higher educational qualifications and undertake various researches." Prof. Naveen Prakash, Director, GCET, says, "We have adopted a student centric teaching process. The institution lays special emphasis on problem solving, sustained disciplined work and practical application of conceptual knowledge. We have been able to build a sound education system by improving the teach-
