

## Catch the bubble as it bursts

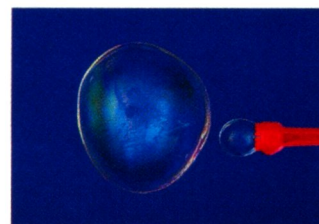

Shot with EOS 400D • EF 24-70mm • f/2.8L USM (3.0 seconds • F11 • ISO100)

Three technologies for high image quality

EOS 400D

•LCD image is simulated

Blowing a bubble

**Capture the moment of greatest impact with a Canon Digital SLR.  
Produce stunning results with Canon's advanced lenses, sensors and imaging engines.**

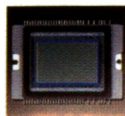

### Leading optical technology in Canon EF Lenses

Canon EF Lenses deliver superb image quality. The comprehensive EF Lens lineup includes around 60 models with everything from ultra-wide angle to super-telephoto performance and automatic camera shake compensation. 30 million EF Lenses have already been produced. Enjoy artistic expression proven by professionals around the globe.

### Large 10-megapixel CMOS sensor

The 10-megapixel sensor on the EOS 400D offers world-class high resolution, as well as rich image expression and high-sensitivity shooting with extremely low noise.

### Canon's exclusive DIGIC imaging technology

The DIGIC imaging engine ensures exquisite color reproduction with exceptional definition and smooth graduations. Accelerated to process large amounts of data at high speed, it achieves a remarkably quick start-up of 0.2 seconds. So you'll never miss a photo opportunity.

### Canon's Digital EOS series cameras with exclusive high-quality image technology
