

"ONLY SCIENCE CAN SOLVE THE PROBLEM OF HUNGER."

"A new India can be built, not merely by the brilliance of a score or hundreds of people, but by the cooperative hard work of the millions," said Jawaharlal Nehru, while pouring the first bucket of concrete into the foundation of the Bhakra Dam. It was one of the most ambitious projects in India. At 680 feet, the dam was the second largest in the world with water that would irrigate 7.4 million acres of land.
