The Four D's in Your Life

Vaastu Speaks

DIFFERENCES: Firstly we talk about the relations with your spouse. Life becomes cool, interesting and looks very rosy if your life partner is compatible with you. The vaastu reasons for non compatibility may be wrong placements of your bedrooms; if you occupy the fire directions you may feel the heat of clashes. Internal

elements in the room like pictures, the color of the room and the entry for the room also matter. The placement of water sources in the fire directions may also become a reason. The placement of kitchen in wrong directions and the internal settings of gas stove and water sinks could also be a culprit for unrest in your married life. Correct the defects of vaastu, apply its peaceful laws.

DISEASES: Health is a basic factor of our life. If you are not healthy you can not grow in life, cannot work hard. Beware if you have a toilet in your northeast direction, this may lead to many chronic diseases and ends in surgical procedures. Northeast bedrooms used by couple may create problems

in pregnancy, could also lead to abnormal children. Never place your head towards north direction while sleeping, the North Pole energy disturbs in sleep and creates health problems. Now we come to the southwest corner, toilets, bore wells, underground water tanks, swimming pools provided in this direction leads to many problematic health issues and in turn create tension and depression. Southeastern bedrooms may give high blood pressure problem and irritation in your mood as a routine. The east side of your plot the direction from where the sun takes a rise is very sensitive. It is blocked and made heavy you get eye related problems, Stroke, Paralysis and severe headaches/migraines etc.

DEBTS AND LOANS: Debts and Loans is a complete enemy in it. It takes away all the happiness from our life. It is very difficult to manage debtors coming early morning and late evenings to ask for their money. One does not like to pick up the phone call at times.

Let us decode the reason behind the heavy debts and loans. Number one, the pushing society which demands to match its pace, secondary the ups and downs in income and lastly we are discussing the vaastu reasons. North direction

blockage is a big reason for debts. Placing heavy furniture's on the north wall, closets given on the north wall, clutter on the north wall, less openings from the north wall are all the vaastu defects. If the building structure is elevated from the north, it creates a vaastu defect. While constructing the upper floor if north area is covered and south direction is left vacant it creates a vaastu defect.

DISPUTES: Disputes is a big tension in industry, it hinders the growth of the company without any reasons.

Check your Northeast direction may have some fireworks or heat generating equipments. This is one of the causes for frequent labor disputes in your industry or office. Lots of business houses have legal disputes much of time is wasted in legal disputes with clients, one case gets closed and other is raised in this problem check your water sources. Is your water borings, underground water tanks are in southeastern direction of the plot? Southeast is the fire place, its owner is lord Agnidev. Fire and water are both anti elements and does not remain happy with each other. Giving place to water in place of fire is like having an enemy.

Dr. Parveen Bhatia

Indian surgeon goes 'Global'

Dr. Parveen Bhatia, a Laparoscopic surgeon has been going 'global' in literal sense. Dr. Parveen Bhatia was invited on May 27, 2005 by Association of Surgeons of Bangladesh to demonstrate his expertise of Laparoscopic Hernia surgery in Birdem Hospital, Dhaka. He used simplified innovative techniques in performing difficult operation of hernia repair. He also demonstrated to all the surgeons in Bir Hospital, Kathmandu, and his skills of

doing stapled haemorrhoidectomy – painless technique of removing the piles in patients of bleeding per rectum. He has been elected the Secretary of IAGES-Indian Association of Gastro-intestinal Endosurgeons. An exclusive

workshop on Laparoscopic or Endoscopic methods will be carried on by the hospital from November 18-26, 2006 to treat Inguinal and Ventral Hernias. This workshop will consists of 2-Way interactive program of live advanced laparoscopic operations from various International and National Hospitals to Global Hospital & Endosurgery Institute through hi-speed (broadband) ISDN Links. Simultaneous Multi-Point interactive Live Cast will be provided from Global Hospital to Reliance webworld centers all over the country. A special lecture on "The Anatomy of Success", by Dr. Rakesh Sinha to demonstrate the techniques of Laparoscopic Hernia repair, will be a part of the workshop.
