

Study In Canada - APPLYING FOR A STUDY PERMIT

Your study permit gives you the legal right to live and study in Canada. As soon as you receive your offer of Admission, apply for a study permit. Do not delay! Processing a study permit can often take a few weeks. The time required to process such applications to study in Canada may vary at different visa offices.

Don't take a chance with your study permit: Choose an Authorized Representative: An authorized representative is someone who must be a member in good standing of the CSIC or the Canadian Law Society, in order to conduct business on your behalf with the Canadian High Commission, Citizenship and Immigration Canada.

Work Opportunities after study : The post-graduation work program is designed to provide graduating students with Canadian work experience in their field of study. The work permit cannot be valid longer than the length of time the student studied in Canada. For example, students graduating from a two year diploma program might be eligible for a one-year work permit or, if they meet the criteria, a two-year work permit. Students graduating from an eight-month certificate program would only be eligible for a work permit of eight months. Students completing a four year degree program would be eligible for a one year work permit, or if they meet the criteria, a maximum of two years work permit. NEW - under the provincial nominee programs of various Canadian provinces, interesting work and immigration opportunities exist for international students. Detailed information on this subject is available with Mr. Anuraj Sandhu, Member CSIC, Canada at headoffice@canamgroup.com.
