

Lounges" having world-class facilities have been/are being provided at major stations. These lounges have already been provided at Chhapra, Siwan, Gorakhpur, Lucknow Jn, Kathgodam, Haldwani, Ramnagar and Basti. And is under process at many other important stations. "Air-Cooled Lounges" have been/are being provided "First Time" on Indian Railways.

**YATRI MITRA YOJANA:** YATRIYON KI SEWA MUSKAN KE SATH has been the motto of this railway. This is being accomplished with unique concept

of YATRI MITRA YOJANA which is operational at Chhapra, Lucknow Jn & Gorakhpur and being extended to Gonda, Kathgodam & Izatnagar stations. Passengers are welcomed by YATRI MITRA with a 'Smile' and provided all assistance and help to needy passengers in friendly and courteous manner.

## SWACHHATA PRAHARI:

Hon'ble Railway Minister has declared year 2006-07 as 'YEAR OF CLEANLINESS'. N.E. Rly has pioneered in ensuring cleanliness at stations, circulating area, train and track. N.E. Rly is the first Railway to introduce mechanized cleaning at stations & trains. Latest gadgets for efficient and effective cleaning have been/are being introduced. Unique concept of 'Swachhata Prahari' has been started. This unique scheme has empowered Station Manager/Health Inspectors with adequate spending powers to instantly organize cleanliness at stations. This unique system is now being extended to Indian Railways by Railway Board.

**CLEAN TRAIN SCHEME:** Along with stations, trains are also being cleaned at Chhapra and Gorakhpur stations for the First time. In fact, at these stations 'Clean Train Scheme' has been started where all UP & Dn trains are watered, cleaned and sanita-

ized. This experiment has been very successful in providing requisite cleanliness in trains and drawn appreciation from traveling public.

**SUPPLY OF POTABLE** quality of water to traveling passengers has been one of the major issues of Indian Railways. N.E. Rly has taken a step forward in this direction by providing "Rail Neer" quality of water with Latest RO technology at major stations, such as Chhapra, Gorakhpur, Gonda, Lucknow Jn, Kathgodam, Haldwani, Rudrapur and Basti. This facility is being further extended to cover more and more stations. N.E. Rly is the first to do this.

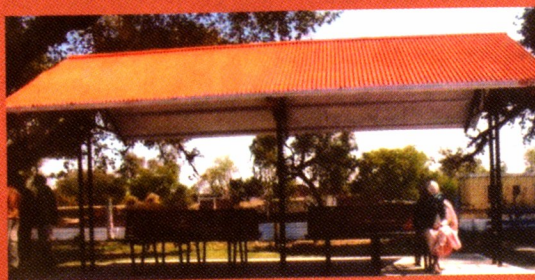

**MEETING PASSENGER RUSH:** To meet ever rising demand of the passengers, number of coaches in most of the trains have been made 23 or 24 coaches. Platforms at 34 major stations have been extended to accommodate 24 coaches for comfortable boarding and de-boarding. High-level platforms have been provided wherever low-level platforms exist. Besides this, Foot Over Bridges (FOB) have been provided for free transfer of people from one platform to another.

**LIGHTING IN PLATFORMS,** circulating area, station buildings, and trains is one of the important activity. N.E. Rly has pioneered in providing world-class lighting with efficient latest technol-

## SMALL SHEDS FOR GENERAL COMPARTMENT PASSENGERS

Present GM, Shri Sukhbir Singh, for the first time has cared for the comfort of general and unreserved passengers. Normally, unreserved passengers travel in General coaches attached near to Engine and last vehicle. Most of the platforms on Indian Railways do not have any shelter for these general passengers at the ends of platform. They wait in open during sun, winter, and monsoon. N.E. Rly has distinguished itself by providing small sheds at both ends of all platforms, for the comfort of these general pas-

sengers. Satisfaction to the customers is what N.E. Rly is aspiring for. He has devised a system of providing small sheds at both ends of the platforms to accommodate 20-25 people who are waiting to board in general coaches. These

small sheds have not only improved the appearance of the station but have provided immense relief to general passengers. N.E. Rly is the first Railway to introduce this system. Minister for Railways has appreciated this and directed all the Railways to follow the same.
