April 2003: as the Baghdad Museum of Antiquities is looted, a teenage Iraqi boy finds an ancient clay tablet in a long-forgotten vault. He takes it and runs off into the night ... Several years later, at a peace rally, a man approaches Israeli prime minister and seems to reach for a gun – bodyguards shoot him dead. But in his hand was a note, one he wanted to hand to the minister. The shooting sparks a series of tit-for-tat killings. All the dead men are archaeologists and historians – those who know the buried secrets of the ancient past. The readers soon plunge into high-stakes international politics and a last, unsolved riddle of the Bible..
