

chicken tikka,
chicken kabab,
chilly chicken,
chicken afghani,
chicken do pyaza...

Ok! So you have played
more roles. Now stop
showing off.

Indian chicken is in great demand across the globe. Western experts reckon, technically, the Indian poultry industry is the second most advanced in the world. Of course,

Sanju eats chicken for altogether different reasons. Its protein content, which is higher than soya. And minimal saturated fats. Now, that's good for the heart. And the stomach too.
