

MAEER's

MIT SCHOOL OF BUSINESS PUNE INDIA

ESTD:1987

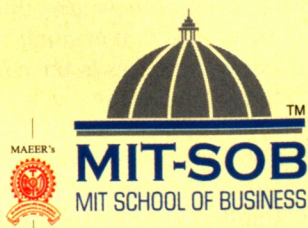

**"at MIT-SOB, we have changed
the concept of business education..."**

The Case Study based methodology being followed at MIT School of Business (MIT-SOB) is a participative and practical way of imparting business education. The students are participants rather than just learners and the faculty is a facilitator rather than a mere lecturer.

The participants study around 500 cases to get the actual feel of real life business situations and learn to think in the managerial way right from the first day itself.

Under the stewardship of **Rahul V. Karad**, an HBS alumnus, MIT-SOB is committed to nurturing global leaders of tomorrow. MIT-SOB offers world class infrastructure, highly experienced and trained faculty and 100% placement assistance to the young aspirants of business education.
