Tell us about the faculty at AIM?

Mr. Shrivastava: We have a fine mix of core faculty with experience in academic as well as in industrial fields. The visiting faculty comprises of a unique blend of academicians, consultants and senior executives coming from diverse backgrounds. Together they provide a balanced set of inputs combining innovative ideas, theoretical rigor, conceptual clarity and practical relevance. In addition to their teaching responsibilities, faculty members undertake significant amount of consultancy assignments, research and live-projects with big corporate houses.

Tell us about the facilities at AIM that enhances the performances for students.

Mr. Shrivastava: AIM remains committed to having a high-quality, development-oriented campus with ample space for studying, researching, working in groups and socializing. Centrally air conditioned lecture theater equipped with latest AV teaching aids including fixed overhead LCD projection systems along with lapel microphone and public address systems, a computer center with over 250 Pentium nodes, a well equipped library with over 17,000 books, 1500 international journals, 150 national journals, a center for psychometric testing, auditorium, conference hall and amphitheater to seat 300 students at a time, give student a zealous and quality campus life.

What are the extra curricular activities available at AIM?

Mr. Shrivastava: Our faculty takes care of the extra curricular activities. The Program Directors and Area chairperson organizes excursions for our students which is yearly tour and is looked forward by every student. The Personality Development Program is round the year process which is outsourced. It has helped students to develop personal and professional skill across the batches which is displayed in our record placement every year.

The institute must always focus on new ways of learning process, product systems and offer high quality industry focused programmes for appreciating and embracing the paradigm shift in the environment which help to develop human capital for future.
