

EMERGING CRACKS

The booming real estate market of the National Capital Region (NCR) is seeing a slowdown as fears over the impact of AI on white-collar jobs weigh on homebuyers' sentiment. NCR was the worst performer across India as real estate sales fell 7% year-on-year to 24,862 units in the first six months of 2026, according to Knight Frank India. Apartments are increasingly concentrated in the ₹2 crore and above range, pricing out a significant share of end-users, says property consultant. The recent volatility in geo-political conditions has also impacted sentiment significantly.

CHURN IN THE AIR

WILL THERE BE more exits at the country's largest airline by market share? As IndiGo CEO Willie Walsh is set to take over next month, there have been key exits from the team handpicked by Pieter Elbers when he took over the reins of IndiGo in 2022. The latest name added to the list is Chief Human Resources Officer Sukhjot Pasricha, who will leave IndiGo at the end of July. A new team is being onboarded to start IndiGo's next phase of expansion plans. CMD Rahul Bhatia is inducting some old hands such as K. S. Bakshi, Group Head of Human Resources. He was with the airline between 2006 and 2013 as HR head.

LUXURY DRIVE BEYOND METROS

BMW INDIA IS seeing faster growth in smaller markets than in metros. While the luxury carmaker is growing at 17%, its sales in Tier II and Tier III cities are expanding at over 20%, albeit on a smaller base. Riding on this momentum, BMW plans to expand its footprint to 10 new markets this year, taking its network from 40 cities to 50 cities, BMW India President & CEO, Hardeep Singh Brar told *Business Today*.
