The Hurun Global Rich List 2026 counted 4,020 billionaires—up 17% from last year—spread across 2,914 companies and 73 countries. Their combined wealth grew even faster—by 28%. However, who has the most billionaires and who has the most money are no longer the same country.

CHINA: NEW BILLIONAIRE CAPITAL

China now has 1,110 billionaires against America's 1,000, ending the latter's long reign as the world's billionaire capital. India is a distant third at 308
