The new India is bold, energetic, unembarrassed and successful. A far cry from the state struggling to find its place in the world 60 years back. INDIA TODAY is celebrating this new India with its second India@60 special issue. An issue that will explore 60 facets of India that have undergone sea change in this period, whether it is the country's success at information technology or its new found economic vibrancy. Pick it up. You are part of the story.
