

Turning Potential into Reality

Empowering Nation through Education

The journey began in the year 1989, under the aegis of NICE Society, envisioned by Babu Vijendra Kumarji, an eminent agriculturist and social worker from Gangoh, Distt. Saharanpur and nurtured by a team of eminent professionals, technocrats, educationists and social workers.

Acknowledging our mission to create the quality human resource in the niche and emerging areas, the Government of India, Ministry of Human Resource Development, vide Notification No. F-9-37/2004-U.3(A) under section 3 of the University Grants Commission Act has granted Deemed-to-be University status to Shobhit Institute of Engineering & Technology, Meerut.

Kunwar Shekhar Vijendra, Pro-Chancellor, Shobhit University, speaks about the bright future that it envisions...

By Jagmohan Majumdar

Q. What makes this University different?

Ans. Knowing that there is a great need for academic and professional enhancement to suit the young minds, the University has identified niche areas like Computer Engineering, Communication Engineering, Agri-Informatics, Bio-Informatics, Bio-Medical Engineering, Bio-Technology, Mass Communication & Management. In all these areas the University is offering advanced programmes, developed in close association with the industry.

Q. What is the vision working behind the University?

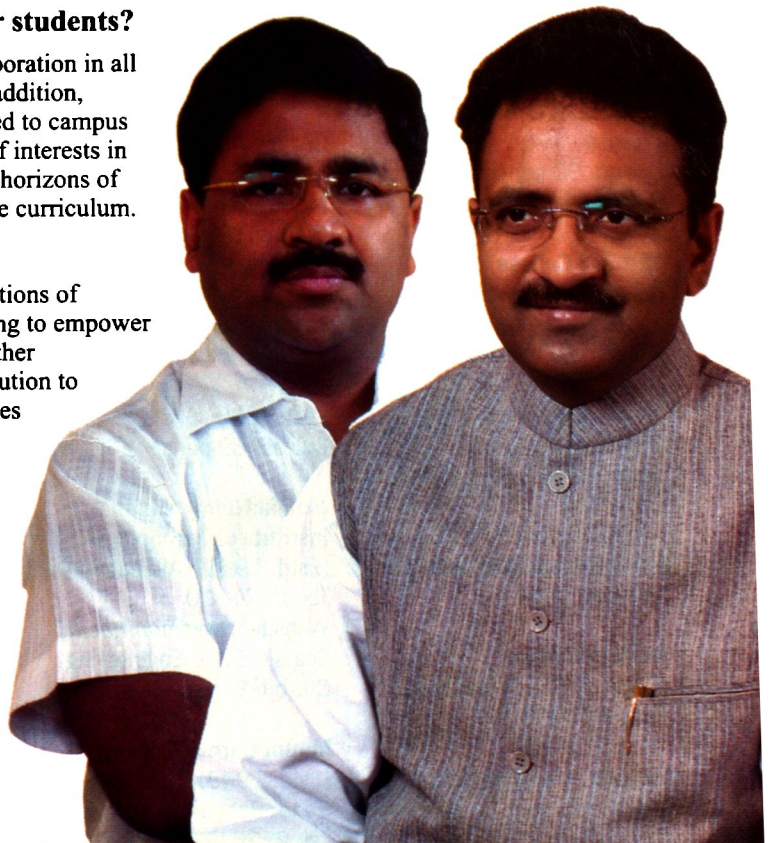

Ans. The University is developing with a blend of Indian traditions and international outlook. We do not want to be a part of any rat race, we want to enjoy the relay race where employment waits for our students. At present students from around 15 countries across the world are studying in the campus. Presence of globe shows our sincere efforts towards our vision.

Q. How do you provide practical exposure to your students?

Ans. There is an active policy of encouraging industrial collaboration in all programs. Students are sent to industry from time to time. In addition, professionals, team leaders and CEOs from industry are invited to campus on a regular basis. These experts deliver talks on wide areas of interests in technical and non technical fields which help in widening the horizons of our students. Industry interface is an integral component of the curriculum.

Q. How does University wish to improve society?

Ans. Improvement of any society takes place when all the sections of society work together for a cause. As a University we are trying to empower young generation with education. Through our hospital and other initiatives in rural areas, we want to make our humble contribution to the making of an empowered healthy nation. Research precedes the directions of development, here comes the R&D component in picture that the University is emphasising upon.
