- MCA

students' employment in industries or to help them begin a business venture in which they achieve phenomenal success. The department is operated with two-fold focus, i.e. augmenting the internal competencies by fostering contemporary grooming of students and by enabling industry to identify and absorb intellectuals with requisite technical and managerial skills. Today GLA is going great guns and is reckoned among the top institutes. In the year 2006, more than 40 companies, including MNCs visited the institute for campus recruitment and recruited 350 students. In the beginning of the year 2007, already 220 students are placed and by the end of June 2007 it is expected that the number of students placed may touch 500 mark. All the top notch domestic and multinational companies have been patronizing the group and are continuously recruiting our students.

GLA campus has several special features. All of these are modern and advanced and they are provided with personalized attention. That is why even though the facilities at the campus are urban and modern; the atmosphere is homely and warm. International level technical and management conferences witness the gathering of the stalwarts from industry and academics. Each institute of the group has fully air-conditioned library which is visual treat for the passionate readers. These libraries contain a rich and adorable collection of valuable books of national and international origin.

GLA campus is endowed with cultural convergence and synergetic learning atmosphere. All the hostel inmates have a perfect, and hassle-free stay in the campus with captive power generation and round the clock water supply.

Dr. J. D. Singh, Vice-Chancellor

How do you perceive the changes that technical education has gone through over the last three decades?

Well, as compared to the time when I graduated as an Engineer, today the growth of technical education and emergence of new and specialized areas of engineering has been beyond my expectations. With human desire to build homes on Moon and Mars, virtually anything is possible today. Today only those can survive and perform successfully who are passionate about their work; who are smart and continue to learn through out their lives and who desire to drive results.

Among 248 odd institutions in U.P. Technical University where does GLA stand?

The University has recently published the detailed analysis of results of the odd semester examination for the academic year 2006-2007. In this analysis, the University has considered the theory examination marks only as the criterion for institute rankings. Based on this our MBA programme has been judged as the best in the whole University i.e. Average marks obtained by our students are highest while our institute has been judged as the 5th best institute among the self-financed institutes of the university for B. Tech. programmes.

What is the distinguishing feature of GLA faculty resource pool? How to you motivate and retain them?

Faculty student ratio at GLA is 1:13.5 which exceeds the standard ratio of 1:15 specified by AICTE. We send our faculty members for various QIPs and Short Term Courses at various centers of academic excellence in the country like IITs & IIMs. Each year we sponsor candidates for post-graduate and doctoral programmes as the need be. We have a unique system of awarding our faculty by giving them two annual increments. Our Performance Recognition Award System enables our faculty members long for excellent academic pursuits.
