

Dr. Om Prakash Agarwal, an epitome of humanity and kindness is an esteemed personality in the area of Medical Science. He was born on 17th of October, 1942 at Pipalikhera, a small village in Meerut District of Uttar Pradesh. He obtained his M.B.B.S. degree in 1967 from Jawahar Lal Nehru Medical College, A.M.U., Aligarh and M.D. (Medicine) in 1971 from the same University. Later, he was appointed as Clinic Registrar of Medical College by the Vice-Chancellor of Aligarh Muslim University. He has always served the society very dutifully, be it in the field of medicine, education or social welfare. He always says "To treat the patients and to impart education both are divine works."

His efforts have been recognized and rewarded by the

The Visionary

Dr. Om Prakash Agarwal, Managing Director, N.I.E.T.

Government of Uttar Pradesh many times. In 1994 he was given the responsibility of 'Governors Nominee' in the Executive Council of Aligarh Muslim University. In 1997 Government of Uttar Pradesh nominated him as 'Member of District Legal Service Authority'. He has also served the Govt. of Uttar Pradesh in Health Schemes from 1973 to 1978.

As an Educationist his journey starts as a Founder Member & General Secretary of the City Educational & Social Welfare Society, Meerut in year 1989. He is the Chairman & Founder Member of Society's first venture City Vocational Public School, Meerut. The next jewel in his crown was Meerut Institute of Engineering & Technology, Meerut. He is the Founder of both MIET & NIET.

in Technical Education

Programmes offered by the Institute

B.Tech. (4 yr. Degree Course)

- Computer Science & Engineering
- Electronics & Communication Engg.
- Electrical & Electronics Engg.
- Information Technology
- Mechanical Engineering
- Bio-Technology*

B.Pharm (4 years Degree Course)

M.Tech. Programme*

- Computer Science & Engineering (Software Technology)
- Electronics & Communication Engg. (VLSI)
- Mechanical Engineering (CAD)

Post Graduate Courses:

- M.C.A. (3 years Degree Course)
- M.B.A. (2 years Degree Course)
- P.G.D.M. (2 years P.G. Diploma Course)

* Approval awaited.

campus events so far.

Teaching Methodology: A galaxy, consisting of conceptually strong and highly qualified faculty members with rich experience from varied disciplines backed by a stream of specialist academicians and practitioners from the industry, contributes in shaping the Teaching Methodology of NIET as unique and high yielding. Our pedagogy model of education ensures empirical learning through activities like: industry visits, guest lectures and not just class room learning. Presentations, seminars, students' access to internet labs, quizzes, tutorials, and projects are the regular key features of education at NIET. The students get the best of inputs through innovative teaching methodologies. Teaching by laptop with LCD/DLP projectors is a common

feature in NIET classrooms.

In addition to regular teaching, events like seminars, workshops and quizzes etc. are organized through ISTE Chapter of the Institute.

NIET-HP Excellence Centre: These days most of the software & electronics industries desire to get trained professionals. NIET has taken a proper note of this need and an Excellence Centre is developed in collaboration with Hewlett Packard (HP) to train the students from NCR region on these desired technologies. This Excellence Centre will bridge the gap between academic curriculum and industrial needs. The students from any institute can come to join vocational training in this Excellence Centre.

Challenges Ahead: 1. To develop a network of tele-conferencing based education system in collaboration with industries and national / international institutes of repute.

2. To support the nearby industries Genetic Algorithms & Metamodeling, Advanced Robotics, Powder Metallurgy, and Nanotechnology labs are being developed. These labs will definitely yield fruitful results in the days to come. Most of the work in this direction is in collaboration with industries.

Foreign Collaborations: In the era of globalization every student has a dream to fly high. The Institute has made collaborations with international organizations such as Texas based Appin Knowledge Solutions, EMC2, and J. Art Broadband, Japan to outsource well trained professionals.
