

COLLEGE OF ENGINEERING ROORKEE

Approved by AICTE, New Delhi & Affiliated to Uttarakhand Technical University, Dehradun.

A HOUSE OF LEARNING WITH A DIFFERENCE TO REDEFINE EDUCATION WITH A MISSION.

J.C. Jain, Chairman

As an institution of high learning, COER is dedicated to two traditions; impart to her students not only professionalism but also high level of moral and social values.

The basic ingredients of any technical institution are the faculty, the infrastructural facilities in terms of classrooms, laboratories, computer centre, library, workshop and other facilities of sports, games and other extra curricular activities. Further, if the hostels are also provided with proper facilities and environment these go a long way in developing the overall personality of disciplined engineering personnel with sound technical background.

COER started with the mission and is striving hard to achieve the well-planned and clearly defined standards.

MODESTY IN CREATIVITY.....

All in all, offering the very best in learning for the students' evolution as better individuals. No one can afford to miss out on anything. COER - A complete learning cycle is for the best of minds. College of Engineering Roorkee (COER) is one of the premier Technical Institution located at 7th Km. on Roorkee- Hardwar Road, Vardhman Puram, Roorkee (UA), the campus provides an enchanting on the busy highway that catches the eye of every passerby. COER is approved by All India Council of Technical Education (AICTE). Previously COER was Affiliated to U.P. Technical University, Lucknow and from 2006 -2007 is affiliated to Uttarakhand Technical University, Dehradun.

ACADEMICS

The Temple of Learning that cultivates the right seeds of thought into the minds of tomorrow's bright prospects. With an introspect that vows to change the face of learning for ages to come. The Academic complex of COER provides requirements of lecture rooms, tutorial rooms, staff offices and offices for the heads of departments.

COER strongly believes in all round personality development of the student through various creative, interactive, confidence building exercises, Workshops and regular stream of tolerance focused in developing team work with a view to shape their attitude for problem solving for workable results.

COER has a modern state-of-the-art computing facility. All students have free access to the computers to do their work any time of the day. All these nodes have access to the Internet through a 2 Mbps lease line. Facilities for scanning and printing include high speed Laser printers. Application software like MS Project, Oracle 8i, Rational Suite Enterprise, and Visual Studio are extensively used.

COER library is provided with a large number of books on different subjects covering from recommended text books to other reference books, journals both national and international including on-line journals. Completely computerized, it has more than what a student expects. There is also a reference section for the ease of students along with fruitful Book Bank schemes for students. The library is open till midnight.

Engineering education is incomplete without an adequate training in the laboratory -demonstration, experimentation and analysis. The fundamentals of experimentation are taught to students in the laboratory. While handling the instruments, taking measurements and analyzing results, the students gain confidence and can understand the phenomenon better. Two triple storey laboratory blocks consist of laboratories, drawing hall and workshop. The laboratories are equipped, keeping in view the training for the basics of the subject and also the research and industrial requirements
