

IME, SAHIBABAD

International Standing of the Highest Calibre

INSTITUTE OF MANAGEMENT EDUCATION, Sahibabad (Ghaziabad) was established in the year 1995 at a time when the surge for knowledge and excellence was on the threshold of an explosion. What with an advancement in InfoTech, liberalized economy and the upcoming generation with high aspirations in life, institutions of higher learning had to meet challenges, which were at once breathtaking and inspiring. The founders of IME were conscious of this perspective. And legitimately so, for the field of management education had already acquired new dimensions. It encompassed not only the development of managerial skills in the functional areas but also capabilities of handling integrated systems based on complex software packages. Indeed InfoTech had already pervaded corporate functioning with emerging competitiveness and global configuration, and IT had come to be an inalienable part of management education. At the same time, Computer Sciences and Information Technology needed professional education in the area of programming and software innovation to service management system.

Fortunately, academics, professionals and corporate executive of high standing who had clear vision of what were needed to meet the challenges of higher education in the new millennium have guided IME, since its inception. Thus, IME has the mission of creating an environment of learning

so as to enable participants – both faculty and students – to demonstrate their potentialities based on self-perfection and undertaking activities towards that end.

During the few years of its development, IME has responded to the nature of career orientation and aspirations of the younger generation. It has introduced degree courses Law besides main stream Management and IT programs at the undergraduate and post-graduate level.

IME is currently running three colleges:

■ IME Management & IT College, which offers Two year Post-Graduate Diploma in Management (PGDM) and Three year Master of Computer Application (MCA) both approved by AICTE, Govt. of India

■ IME Post Graduate College offering BBA, BCA, B.Lib., and M.Com., courses affiliated to CCS University, Meerut; and

■ IME Law College runs LL.B. (three year) and BA LL.B (five year) course approved by Bar Council of India and affiliated to CCS University, Meerut.

IME is running PGDM course from the past 12 years as an independent institution where it is in a position to offer more dynamic course coverage as per the current economic environment and industry needs. Currently there are more than 3200 students in the three different colleges managed by IME society.

I.T.S.

Success Through Conviction

At I.T.S our endeavour is towards sustained growth, achieved through conviction. We started as one campus and one course. We have built on our strength and received immense support from our students, faculty, the society at large and various establishments across the country where our students have found their roots.

THE I.T.S GROUP OF INSTITUTIONS is headed by Mr. R.P. Chadha as its Chairman, who believes in absolute quality and takes special care in developing excellent environment for students to build their overall personality. All the heads of I.T.S Group of Institutions have vast experience in their respective fields. Their regular support and guidance helps in the development of not only the students but also the Institute, Faculty and the Staff.

All I.T.S Institutions are well endowed with professional and

experienced faculty, appropriate attitude and ambience for learning, excellent infrastructural support, strong networking with corporate and professional world and passion for ethical standards.

"At I.T.S we nurture the potential and ensure it to grow into a commitment. Together, we create a Thinking Professional Order", sums up Mr RP Chaddha.

"In 1995 we had laid the foundation of Institute of Technology And Science. That was the beginning of giving shape to a dream that the founder members of I.T.S Group had seen about Institution building. Today, we are four campus strong, one each at Mohan Nagar, Murad Nagar and two at Greater Noida, with 14 courses and more than 5500 students."

"At I.T.S our endeavour is towards sustained growth, achieved through conviction. We started as one campus and one course. We have built on our strength and received immense support from our students, faculty, the society at large and various establishments across the country where our students have found their roots."

"I.T.S now is a brand well known for the values it cherishes, which offers professionals of highest order in each field of their specialisation namely Management, Information Technology, Dental Surgery, Engineering, Pharmacy and Bio-technology."
