Looking and Thinking Beyond

INDIA IS AT THE THRESHOLD OF THE 21ST CENTURY. THE BREAKUP OF THE U.S.S.R. and the success stories of Glasnost and Perestroika are the main features of the second half of the 20th century. Winds of change are blowing all over the world and India is no exception to these sea changes. The transformation from regulation to liberalization, from protection to globalization, from planned economy to market-oriented economy demand a new approach to deal with all types of problems.

At the time of independence, Indian economy was developing and hence we required management skills. However 50 years after independence, the Indian economy has become more mature and hence we require entrepreneurial skills.

The last two decades have witnessed a tremendous change in the Indian economy. With evolving tastes, life styles, & demands, it is one of the fastest growing in the world today. Globalization is on everybody's lips now and the market has opened up to big international players who've brought with them a global way of thinking. All this has led to a tremendous boom in the job market. Globalization & liberalization under the guidance of World Trade Organization has provided the impetus for India to grow into an IT hub.

Today's on-demand business world necessitates enterprises to respond to an environment where information, solutions and results are on demand. They will need the ability to access just the right information and just in time for their particular needs. The same goes for learning. Must extend beyond learners as individuals to include learners as teams and organizations. Learning must become a key vehicle to enhance relationships across the enterprise and its entire value chain. Learners must be empowered to shape, rather than just passively receive their learning experiences. Opportunities to learn must become embedded in process-work flows, enabling while doing. An on-demand business world needs an on-demand learning policy to match.

Encouraged by the key role played by technocrats in the nation's economy, ABES Engineering College was established in the year 2000 in Ghaziabad, U.P. The Academy is running AICTE approved programmes viz. B.Tech MBA & MCA. All these programmes are affiliated to UP Technical University (UPTU), Lucknow. Don't limit your minds – think and look beyond; this is what every entity in ABES is made to learn. If we can accomplish this today, we do not have to wait till 2020 to achieve the aspirations of our national vision.

GNA

Where Commitment is Religion

THEY SAW THE VISUALIZATION OF THEIR DREAMS WITH THE GRANDIOSE EMPIRE at GNA. Incorporated in 1946 by its Founder Chairman Mr. Amar Singh in Village Bundala, Jalandhar District, where his elder sons Mr. Ruchpal Singh and Mr. Gursaran Singh joined hands. Through laborious instincts and diligent efforts, a repair shop had a quantum leap into manufacturing rear axle shafts and thus witnessed the prance from the production of 2 axles to 7000 axles today. With synthesized and unified efforts of the brothers Mr. Maninder Singh, Mr. Jaswinder Singh, Mr. Gurdeep Singh and Mr. Ranbir Singh GNA has emerged as the largest manufacturing Group comprising GNA Axles Ltd., GNA Duraparts Pvt. Ltd., Village Mehtiana, District Hoshiarpur and GNA Udhog Ltd, Village Bundala District Jalandhar. GNA is accredited by TUV Rheinland for professionally managed ISO 14001, 1996 and ISO 16949 – 2002. If turnover is any parameter of success, it is a phenomenal and whopping turnover of Rs 250 Crores today and have volume of orders in hand and has ambitious targets of Rs.350 crors turn over for next year.

The company has carved a niche par excellence for itself by maintaining higher level of consistency in products and services quality. For GNA "Quality is the criteria and variety is the consideration", as it follows stringent quality control norms so as to ensure that products are in confirmation with the international standards and specifications.

GNA's forte lies in their capacity to cater requirements with close dimensional accuracy and immediate delivery with the teamwork of 3000 agile personnel who are erudite and skillful in their respective fields, thus maintaining a vigil on quality. The Industrial Unit is outfitted with state of art gregarious facilities and the production unit is equipped with the latest and sophisticated machinery enabling high productivity. The group has spread globally through customer oriented approach and by achieving excellence through quality innovation and technology. From the inception of the firm it had an opportunity to be associated with many reputed firms and industries as OEM. It has not only made an impact on the national market but also very much significant in International Domains with clients who vouch for their quality production like Mahindra & Mahindra, Eicher Tractor, Swaraj Mazda, Maruti Udyog, Punjab Tractors, Carraro Ford, Dae-woo, Renault Agriculture etc. With all the feather of exemplary clients in its hats it still nurtures an aim to comprehend the changing market trends to come out with innovative production to meet the exacting requirements of clients.

Everyday exploring new heights, every hour coming up with something new and every moment thinking a whole new lucrative idea, GNA Group as such seems to be on the race beyond time. And for all of us it is leaving footprints to be walked on ...
