Further the National Board of Accreditation of AICTE has granted accreditation to four of our degree courses i.e. Computer Science & Engg., Electronics & Communication Engg., Electrical Engg. and Mechanical Engg. as soon as two mandatory batches of students have passed.

INNOVATIVE TEACHING PRACTICES

The institute has adopted latest technology in class room teaching by introducing projection screens, computers, sound amplification system and digital pens. The material taught can be prepared in a much better fashion and the class notes can be saved and put on internet on the websites of individual lecturer. Each department has been provided with individual seminar halls equipped with latest audio-visual equipment.

ADMISSIONS

Admission to the college will be done using AIEEE ranking by Haryana State Counselling Society through online counseling

INDUSTRY INSTITUTE INTERACTION

Our institute has an excellent training and placement cell which provides assistance and guidance to our students in getting jobs and to meet the demands of the competitive world of work and industry. Our painstaking faculty prepare the students for the campus interviews. The placement cell works in co-ordination with the students giving the directions and resources to acquire necessary skills to secure their dream job. LIMAT generates awareness among students by organizing guest lectures, panel discussions, and workshops from time to time.
