and Pharma graduates.**

**Institute of Clinical Research (India) in collaboration with Cranfield University, UK
announces admissions to MSc in Clinical Research.
2 Years full-time programme at Mumbai, Bangalore, Delhi & Ahmedabad Campuses.**

What is Clinical Research?

Clinical Research is a systematic study for new drugs in human subjects to generate data for discovering or verifying the Clinical, Pharmacological or adverse effects with the objective of determining safety and efficacy of the new drug.

Career Prospects in Clinical Research

Trained Clinical Research professionals are in great demand in India. As per the McKinsey Report 50,000 professionals will be needed by 2010. In addition pay scales within the Clinical Research Industry, are considered amongst the industry's best.

ICRI - gets you ready for the future

ICRI is the country's premier Clinical Research Institute dedicated to promoting ethical Clinical Research and high-quality Clinical Research education.

Some of ICRI's Milestones are:

- 1) ICRI is India's first and only Clinical Research Institute offering an MSc in Clinical Research.
- 2) ICRI developed and published India's first ever book in Clinical Research.
- 3) ICRI Instituted the first award for lifetime achievement in Clinical Research which was presented to Dr. N.K. Ganguly (D.G.) Indian Council of Medical Research (ICMR).
- 4) In recognition of ICRI's position and its efforts to develop new courses in Clinical Research, both the governments of UK, and India, under the UK India Education and Research Initiative (UKIERI) gave ICRI the first and only grant in the area of Clinical Research.
- 5) Drug Information Association (The single largest association of pharmaceutical drugs in the field of Clinical Research Globally) partnered with ICRI for organizing an international conference in India for the first time in Mumbai in 2006 and the same will be jointly organized in 2007 as well.
- 6) Department of Science and Technology (Government of India) and ICRI have been organizing conferences in Clinical Research for the past three years.

7) ICRI with World Health Organisation (WHO) organized a workshop on pharmacovigilance in India.

8) Eminent faculty from ICRI were chosen for presenting scientific papers at every important scientific meet worldwide, such as DIA at Philadelphia (2006), Association of Clinical Research Professionals (ACRP) at Phoenix (2006), ACRP at Seattle (2007) & DIA at Vienna (2007).

Cranfield University - A Global Leader in Clinical Research Education

Cranfield University is one of the top five research intensive UK universities and is in the same league as Oxford, Cambridge, London's Imperial College and UCL.

MSc in Clinical Research - 2 Years Full-time Course

MSc in Clinical Research from Cranfield University, UK is administered by ICRI. The MSc from Cranfield University offers students the advantage of studying under a team of highly-qualified faculty from both UK and India. Students will have the option of completing part of the second year in UK itself. ICRI also provides internships during the last four months in the industry's best multi-national & national organizations.

Placement Division
