

"I am delighted to share that 2007 is a year of special importance to the Apeejay Education Society, as it would be celebrating its 40th anniversary this year. The Apeejay Education Society came into existence on December 4, 1967, with its first school in Jalandhar, Punjab, and has, since then, been making consistent efforts to serve the nation for four momentous decades by providing quality education of global dimensions, leading to man-making and nation-building."

The motto of the society - "Soaring High is My Nature" has been concretized through its chain of 12 schools and 13 institutions of higher learning across the country, that offer value-driven holistic education from pre-nursery to doctoral level to over 32,000 students. We have, thus, chosen "Udaan - Flight of the Falcon" as the slogan of our 40th anniversary celebrations.

When we started our first school at Jalandhar, our vision was to set up an educational institution that would not only impart quality modern education as per the need of the hour, but also produce autonomous life-long learners, with a deep sense of their country's culture, heritage and value-system. Forty years on, the core Apeejay vision still rings true, though a lot has changed in terms of technological advancements, teaching-learning methodologies and the needs of modern education. The focus on value education still remains strong in all our institutions, as we firmly believe that a student's education is not complete till she/he has imbibed the essential qualities of honesty, fair play, empathy and knowing to 'do the right thing', and has blossomed into an enlightened citizen of the country. I am happy to share that, over the years, our students and 50,000-strong alumni have been excelling at all levels in varied fields and have carved a niche for themselves not only nationally, but also globally. This is the biggest testimony to the Apeejay success story.

"Main akela he chala tha janib-e-manzil magar, log milte gaye aur karwan banta gaya"

As we forge our way through the new millennium, I am sure that this fruitful journey towards excellence shall embrace many more milestones, overcome all odds and scale many new peaks along the way.
