

FOR EDUCATION

A BETTER FUTURE

Groundbreaking researches are now more interdisciplinary than ever

Facilities:

- Network with other institutions, R&D Groups and Industry in India as well as with the rest of the world
- Exchange of Faculty & student community, joint research as a result of networking
- Congenial atmosphere for scholars in academic, vocational or research oriented programmes

Negotiating International partnerships, collaboration and exchange programmes in fields such as Life Science, Engineering, Management, and Computer Science

"It has been wonderful to visit the Seedling Academy, see its excellent facilities and interact with the staff and students, so hard working and enthusiastic. I am sure the Academy will reach much greater heights."

Prof & Dr Mrs. Maheshwari

Indian National Science Academy Hon. Scientist

The Future: Not content to rest on its laurels the Seedling Group marches confidently ahead towards an enormous metamorphosis, which will reinforce its philosophy of complete education and bring about true development by guiding and harnessing the potential of youth. The transformation of the institutions of the group into Jaipur National University, a self financed private University, under the relevant act of the Government of Rajasthan is in fact apt recognition of the magnitude of qualitative and quantitative growth that the group has shown in a short span of just 5 years. The University which will come into existence with full fledged activity soon is envisaged as a global centre for contemporary learning which will not only provide the best faculty, facilities and equipment to students under its flagship but will also assure a congenial atmosphere so that scholars may pursue programmes of study whether academic, vocational or research oriented according to their potential, aptitude and interest. The plethora of courses made available to the students at the University shall aim at maintaining the right balance between industrial needs, student preferences and social responsibilities.

The group plans to introduce M.Tech(Food Technology; Biotech; Comp Sc & Engg.), M.Sc (Bioinformatics, Nanotech-

COURSES OFFERED AT UNDERGRADUATE LEVEL

Study Programmes in Core Areas

1. Nanotechnology
2. Biotechnology
3. Bioinformatics
4. Food Technology
5. Hotel Management & Catering Technology
6. B.Sc Biotechnology Integrated
7. Bachelor of Business Administration(BBA)
8. Bachelor of Visual Arts (BVA)

COURSES OFFERED TILL POST GRADUATION LEVEL

Integrated courses in Non-Conventional Areas

1. B.Sc-M.Sc Biotechnology
2. B.Sc-M.Sc Information Technology
3. B.Sc-M.Sc Bioinformatics
4. B.Sc-M.Sc Microbial Technology
5. B.Com-M.Com Accounting & Taxation
6. B.Com-M.Com Global Banking & Finance
7. B.Com-M.Com Business Management & E-Commerce
8. MBA, PGDBM
9. MCA

nology, Artificial Intelligence, Networking Tech; Microbial Tech), Master of Journalism & Mass Communication; M.A—Clinical Psychology; Counselling Psychology. A new package on IPR & Patent writing will be offered, doctorate programmes shall be introduced in a few disciplines. Also in the pipeline is the development of an Incubation centre and Biotech Park in collaboration with the Industry and to provide an environment where entrepreneurship develops, prospers and is sustained. Acting as an umbrella for the best scientific minds of the country Seedling Group in the long run aims at developing world class competencies in its students thus contributing to the development of the people of India and the State of Rajasthan in particular.

Summing up in the words of Mr. Bakshi, "at the end of the day, what we need is an aspiration, an ambition and then finally creating an ambience to fulfill the ambition and aspiration. We have made a conscious effort to build these in the design of the Institutes."

Today's organizations seek people who bring in dynamism, enthusiasm and energy. One energetic team member can have a huge positive rub off on the rest
