

Providing innovative solutions
to enable split-second decisions
at 300 kmph for Ferrari. That's

certainty

The formula one racing car is the most complex and advanced car in the world, packing research in aerodynamics, engine technology, brakes, tyres and modelling. It has more in common with a jet plane than it does with a high performance car. Tata Consultancy Services (TCS) works with Scuderia Ferrari before, during and in-between races to help their cars go even faster. As one of the world's fastest growing technology and business solutions providers, TCS ensures that all mechanical and electronic systems perform at their optimum under levels of extreme stress. Managing pressure and troubleshooting in a situation where every little advantage makes a huge difference. And of course, enabling Ferrari to experience certainty.

TATA CONSULTANCY SERVICES

Experience certainty.
