DR. AJAY THAKKERFOUNDER CHAIRMAN,
JUPITER LIFE LINE HOSPITALS**(FY26 REVENUE: ₹1,500 CR)**

Dr. Ajay Thakker founded Jupiter Life Line Hospitals with the aim of building tertiary care hospitals centred on clinical quality. Starting with the flagship hospital in Thane, the organisation expanded into a broader healthcare network across western India, investing along the way in specialist medical services and modern hospital infrastructure to support increasingly complex cases. His approach has consistently emphasised multidisciplinary care, bringing multiple specialities together around individual patients, alongside strong clinical governance and deliberate, structured institution building.

DR. AJAY TYAGIFOUNDER,
YATHARTH HOSPITALS**(FY26 REVENUE: ₹1,207 CRORE)**

Dr. Ajay Tyagi established Yatharth Hospitals with a focus on bringing advanced hospital care to Delhi-NCR and western Uttar Pradesh. Rather than concentrating solely on India's established metropolitan hubs, the network grew by deliberately developing hospitals in emerging urban centres, an approach that positioned Yatharth to serve populations with comparatively limited prior access to advanced tertiary care. Under his leadership, the group invested in specialist medical services, critical care capacity and modern hospital infrastructure, while building a base among both urban and semi-urban populations across the region.
