

THE POINT

BUILDING
INDIA

India's manufacturing sector has strengthened considerably over the past few years, with sales and profits more than doubling since FY19. Debt increased, but equity grew faster, bringing down leverage. This has translated into strong market performance, with several manufacturing-linked sectoral indices outperforming the Nifty 50.

ROBUST GROWTH

Combined sales turnover of Indian listed and unlisted manufacturing companies more than doubled from ₹82.3 lakh crore in FY19 to ₹174.2 lakh crore in FY25, a 112% increase over six years

PROFIT SURGE

Net profit of Indian manufacturing companies nearly tripled from ₹4.1 lakh crore in FY19 to ₹12.2 lakh crore in FY25, despite a pandemic-led dip in FY20, reflecting sustained earnings growth

NET PROFIT
(₹ lakh crore)

192%

Among manufacturing-linked sectors, the Nifty Auto index delivered the highest return at 192% over five years, followed by Nifty Metal at 137% and Nifty Infra at 112%, significantly outperforming the Nifty 50 (51%)

BALANCE SHEET BOOST

Indian manufacturers' debt rose 77% between FY19 and FY25, but equity more than doubled, reducing the debt-to-equity from 82% to 59%
