

Tarun Arora, CEO &  
Whole Time Director,  
Zydus Wellness

OUR PRIORITY IS TO  
STRENGTHEN THE FOUNDATIONS OF THE  
BUSINESS FOR RESILIENT, AGILE AND  
RESPONSIBLE GROWTH

Zydus Wellness completed 450 Kaizen, or continuous-improvement, projects during the year, while Overall Equipment Effectiveness (OEE)—a measure of how efficiently a manufacturing line is being used—stood at 84% for Sugar Free, 78% for Everyuth and 75% for fat spreads. “Our priority is to strengthen the foundations of the business for resilient, agile and responsible growth. Manufacturing is key, but so is building capabilities for innovation, new categories and global expansion. Sustainability remains integral to how we grow,” says Tarun Arora, CEO and Whole Time Director.

Its manufacturing facilities also supports exports, with 23% of chocolate and 58% of chocolate spread produced at Ahmedabad being exported, along with 11% of cookies produced at Aligarh.

The company is also adding infrastructure in anticipation of further demand. Its Annual Report says it has undertaken infrastructure-development projects for new manufacturing facilities. Zydus Wellness completed 450 Kaizen and continuous improvement projects during the year.

The manufacturing investments come as the business itself expands. In Q1FY27, Zydus Wellness reported net sales of ₹1,429.9 crore, up 66.7% YoY, while EBITDA rose 55.3% to ₹241.7 crore. Its organised-channel saliency in India also reached 38% in Q1FY27, comprising 17% from modern trade and 21% from e-commerce.

International operations are also becoming a larger part of the business. The company reported high double-digit topline growth in its international business in Q1FY27, with Sugar Free, Complian, RiteBite Max Protein and Nycil contributing significantly.

For Zydus Wellness, the manufacturing strategy is being built around capacity, productivity and flexibility as the company adds products and markets. **BT**

Zydus Wellness plans to expand its portfolio and reach new consumers through a wider range of products

BY NEETU CHANDRA SHARMA

**S ZYDUS WELLNESS** expands its portfolio of consumer wellness products and builds a larger international business, it simultaneously stepping up investments in manufacturing technology and operational efficiency.

The company's manufacturing footprint currently includes four owned plants in Ahmedabad, Aligarh and Sikkim, supported by 25+ contract manufacturing sites across India, Bangladesh, New Zealand and Dubai. During FY26, it increased capacity across categories, while also reporting its highest-ever production of Everyuth sachets at Sikkim, and mayonnaise and chocolate at Ahmedabad.
