

SECTORAL STARS

Here is a list of the companies writing India's
manufacturing story across sectors

▶ **IF INDIA'S MANUFACTURING** story has to be understood, one way to do it is to look at the number of companies spread across sectors.

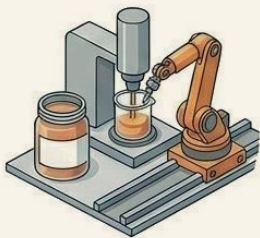

Be it oil refining, consumer goods, pharmaceuticals, automobiles, to look at just a few, there are multiple examples of scale, ability to serve a global market, sustained growth in financial terms, and a

solid road map.

Remember, a large part of this list—we call them Manufacturing Champions—were around in the pre-liberalisation era and had to adapt quickly in a new business environment.

They have not just done that well, but have become case studies on how to compete effectively on

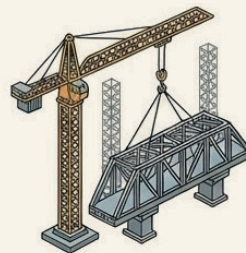

180 |

Asian Paints

Paints/varnish

Asian Paints, India's top paint and décor company, has 25 facilities worldwide. It is expanding beyond paints, with a push into B2B, regionalised offerings, premium products and services. Its manufacturing strategy includes backward integration, with a white cement plant in Fujairah, UAE, already operational. It is also commissioning a VAM-VAE manufacturing ecosystem. It is a strategic chemical value chain critical to modern paints, coatings, adhesives, and construction industries.

Larsen & Toubro

Infrastructure developers & operators

Larsen & Toubro (L&T) operates at significant scale across infrastructure, energy, manufacturing, technology and services. Its footprint spans 630 active project sites and 22 manufacturing facilities, supported by more than 59,403 employees and a workforce of around 378,000. The group delivers complex projects across India and internationally, with capabilities spanning construction, heavy engineering, defence, energy, digital technology, and other critical infra sectors.
