

HOW WE DID IT

The methodology behind the ranking of
India's Top 10 manufacturing states

BY PRINCE TYAGI

▶ **TO IDENTIFY INDIA'S** overall top-performing manufacturing states, *Business Today* developed a blended scorecard that combines both the current scale of manufacturing and long-term as well as medium-term growth across all seven parameters evaluated in the study. The blended scorecard provides a balanced assessment by recognising states that

have built a strong manufacturing base while also rewarding those that have demonstrated sustained long-term growth and strong recent momentum. This approach avoids relying solely on the size of the manufacturing ecosystem and instead captures both scale and growth, offering a comprehensive measure of manufacturing competitiveness across Indian states.

The scorecard was prepared using the same seven indicators: Number of factories, state-wise invested capital, gross state value added (GSVA)—manufacturing, GSVA—construction, state-wise exports, state-wise number of workers, and state-wise availability of power.

For each parameter, all 33 states and Union territories, included in

58 |

THE TOP 10

BT Rank	States & UTs	Total maximum score	Blended score across seven parameters	Composite score for seven parameters						
				Number of factories	Number of workers	Invested capital	GSVA by Manufacturing	GSVA by Construction	Exports	Power availability
1	Gujarat	693	578	84	91	71	83	84	93	72
2	Uttar Pradesh	693	574	84	90	81	74	87	75	83
3	Tamil Nadu	693	504	66	73	62	91	76	90	46
4	Rajasthan	693	480	64	77	80	77	45	55	82
5	Madhya Pradesh	693	476	55	71	78	55	63	72	82
6	Karnataka	693	474	68	65	67	80	50	87	57
7	Assam	693	463	67	42	77	75	87	55	60
8	Andhra Pradesh	693	461	44	74	64	82	78	77	42
9	Odisha	693	453	47	72	53	70	69	69	73
10	Maharashtra	693	444	51	76	65	53	72	61	66
