

to make industrial corridors... there is going to be a lot of employment," Bhargava said

» "There is no cause for alarm under the current circumstances [Strait of Hormuz crisis] because we have handled the situation," said Vaswani

» Gupta described how deep-water facilities capable of accommodating larger ships would be supported by digital customs clearance systems

ENERGY SECURITY IN UNCERTAINTIES

(From left) **Shalu Agrawal**, Director—Programmes, CEEW
Gaurav Gulati, Partner, Energy & Process Industries Practice, Kearney India

Debajit Palit, Centre Head—Centre for Climate Change & Energy Transition, Chintan Research Foundation

» Agrawal said India has largely overcome the challenge of energy access and the next phase is about ensuring affordability

» Gulati estimated that modernising the transmission network alone could require investments of \$15-20 billion over 10 years

» Palit offered a broader perspective on India's energy transition, arguing that the debate should move beyond "fossil versus renewable" to "electrons wherever possible, molecules wherever necessary"

105

» Jain said the India Semiconductor Mission (ISM) 2.0 goes beyond chip fabrication to include packaging, chemicals and other components of the value chain

» Mittal said India has made remarkable progress since the country's first mobile call in 1995 and is now moving into an era where networks will connect intelligence rather than just people

» Godse said the next phase of growth would depend on addressing issues around trusted data sharing, affordable AI models and cybersecurity

FIXING URBAN COMMUTES

Vinayak Chatterjee,
 Founder & Managing
 Trustee, The Infravision
 Foundation

» Chatterjee stressed the need for a unified metropolitan transport authority to solve urban challenges. He also said public transport is a state's responsibility and should not involve private capital

NEXT WAVE OF INFRA CAPITAL

Manoj Dubey, CMD,
 IRFC

» Dubey highlighted that Indian Railways is now 99.7% electrified and says the next major milestone is the shift to green energy. He added that IRFC's focus is on providing low-cost financing to accelerate India's infrastructure development
