

50 Years, 150+ Schools A Champion's Story

For five decades, the Ryan Group has been built on faith, trust and hope. Today, Ryan Pinto is steering it towards an AI-driven, borderless future—while remaining rooted in the values and vision of its founders.

In 1976, Dr. Augustine F. Pinto, Founder and Chairman, and Dr. Grace Pinto, Managing Director, began with a single classroom in Mumbai, 36 students and one conviction — that quality education is every child's right. Fifty years on, that conviction has grown into one of India's largest school networks, and now the legacy is carried forward by Ryan Pinto, CEO of the Ryan Group of Schools.

In 2009, while still an undergraduate at Aston University, Pinto opened the Group's first school outside India, in Sharjah. That single campus has since grown into a four-school UAE presence across Abu Dhabi, Dubai and Sharjah. He also launched a new brand within the Group, Ryan International Academy, built on outcome-based learning, the Ikigai Centre for Learning, and a dedicated Sports Academy of Excellence.

Today, the network spans 150 plus institutions across 20 plus states and 40 plus cities in India and globally, educating close to a quarter of a million students and it is still adding

campuses every year. Recent openings span Mumbai, Pune, Bengaluru, Hyderabad, Amritsar, Bikaner and Nakodar, pushing the footprint beyond metros into smaller cities.

On the classroom side, the KASSM framework — Knowledge, Attitude, Skills, Social and Moral values — threads sports into the academic day through partnerships with La Liga, Junior NBA. Pinto has also driven classroom firsts: India's first Toy Library with TAITMA, the Ryan Creative Studio with Faber-Castell, and Atal Tinkering Labs. A newer Royal Grammar School Guildford, UK partnership will bring British-curriculum schools to India, starting in Bengaluru in 2028.

He was ahead of the curve on technology, too: when the pandemic hit, he already had Ryan OS, a learning management system that kept students across the network learning uninterrupted—infrastructure

still in use today.

The Group's CSR record has scaled alongside enrolment. The Food Bucket Challenge has distributed over 7.5 lakh kilograms of food since 2014, a clothing drive earned a Guinness World Record for 295,000-plus items donated, and a One Million Saplings Plantation Drive with Rotary International targets ten cities by June 2027.

The recognition has followed the growth: a Visionary Leader in School Education honour at the Outlook Business Spotlight Awards 2026, Bronze Trailblazing Leader in K-12 Education at the Economic Times Summit 2025, and K-12 Edupreneur of the Year 2024.

Fifty years after a single classroom in Mumbai, the Ryan Group's story is one of continuity, the same founding conviction, expanded campus by campus, market by market, into a network still being built.
