

gule shipyard have emerged. These build blocks of a bigger vessel that are integrated at the main shipyard later.

The government taking a leaf out of the South Korean model and establishing greenfield mega shipbuilding clusters across the country. These will be equipped with common dry docks, breakwaters, dredged channels, outfitting berths, utilities, shared logistics infrastructure, and ancillary manufacturing ecosystems.

The first cluster is planned in Tamil Nadu through a collaboration between V.O. Chidambaranar Port and SIPCOT. Additional locations under consideration include Andhra Pradesh, Odisha, Gujarat and Maharashtra. Each cluster may involve an investment of ₹10,000-20,000 crore.

Riding the shipbuilding boom, Gujarat has already come out with Shipbuilding and Repair Policy 2026 and is eyeing an investment of more than ₹27,000 crore. The Gujarat government will set up two Integrated Mega Shipbuilding Parks.

REPAIR, THE BIGGER PRIZE?

The global ship repair and maintenance market in 2026 is valued at \$32-41 billion and projected to grow to \$55-60 billion by 2030-2036, according to the Ship Repairing Global Market Report 2026 published by the Business Research Company. Though India's share is less than 2%, it is emerging as cost-competitive alternative. Its location in the Indo-Pacific and the 7,500-km coastline mean potential for emerging as a regional ship maintenance, repair and overhaul hub. The L&T shipyard in Chennai has repaired *USNS Salvor* and two British vessels, the *Royal Fleet Auxiliary Argus* and *RFA Lyme Bay*. This was the first time a Royal Navy vessel underwent maintenance at an Indian shipyard. Besides L&T Shipyard, the US Navy has entered into a tie-up with CSL.

In a strategic acquisition to position it as a global player, the government has given a nod to MDL to acquire a controlling stake in Sri Lanka's largest ship-

BUILDING AN ECOSYSTEM

Massive orders for major shipyards

ORDER BOOK VALUE

MAZAGON DOCKYARD LTD

₹18,000-23,000 CRORE

GARDEN REACH SHIPBUILDERS

₹15,000-18,000 CRORE

GOA SHIPYARD LTD

Executing NGOPVs & coast guard vessels (Values not disclosed)

L&T KATTUPALLI

Part of L&T's ₹7.4 lakh crore consolidated backlog

EXPORT ORDERS

GRSE

Twelve vessels from a German client plus a dredger for export

COCHIN SHIPYARD LTD

Contract for \$360 million to build six LNG-powered container ships for CMA CGM France

MAZAGON DOCKYARD LTD

Exploring offshore vessels and commercial ships, MoU with Brazilian Navy and Colombo Dockyard for repair/refit

GOA SHIPYARD LIMITED

Focussed on OPVs and coast guard vessels, with past exports to Sri Lanka and Mauritius

KEY PROGRAMMES

P15B destroyers, P17A frigates, submarines

P17A frigates, ASW shallow water craft, next generation offshore patrol vessels (NGOPVs)

NGOPVs, fast patrol vessels

Naval support vessels, commercial shipbuilds

HIGHLIGHTS

Zero debt, simultaneous work on 10 warships & 11 submarines

Delivered eight vessels in FY26; export pipeline for 12 ships

Fourteen vessels launched in 600 days; 65-76% indigenous content

Private sector muscle; modular construction capability
