

BUILDING VALUE CHAINS

S. Krishnan, Secretary, Ministry of Electronics and Information Technology

» Krishnan said technological self-reliance should not mean manufacturing every component. "India needs strategic autonomy, alternative supply chains and a larger share of the value chain within the country. India is targeting 35-40% domestic value addition in mobile phone manufacturing, up from 22-23%," he said

FOOD FOR THOUGHT

Tukaram Mundhe, Commissioner, Maharashtra FDA

» Mundhe said repeated transfers have had an impact on his family. He recalled how his son had to change schools several times while growing up, moving between Mumbai, Solapur, Pune and Nashik before eventually staying in Mumbai from the fifth standard. For Mundhe, the focus remains less on how long he stays in a post and more on what he can contribute

REWARDING RESILIENCE

(From left) **Aabha Bakaya**, Anchor, BT, with **S. Mahendra Dev**, Chairman, EAC-PM

» Despite major global shocks, India's economy remains resilient and can still achieve 7% growth this year, Dev said.

» "Last year, many of economists, said growth will be below 6%. We have achieved 7.7% last year. So, we have been maintaining more than 7%. And this year also, RBI said 6.7%, but I think we may achieve 7%," he said
