

**Mr. Ravi Kumar Jha**  
MD & Chief Executive Officer  
LIC Mutual Fund Asset Management Ltd.

### **How is LIC Mutual Fund positioning itself in an increasingly competitive and evolving asset management landscape?**

The asset management industry in India is becoming increasingly sophisticated, with well informed investors and rapid innovation. LIC Mutual Fund is positioning itself by staying true to its long term investment philosophy while continuously modernizing its operations, risk frameworks, and investor engagement models. Our focus is on disciplined fund management, robust research capabilities, strong compliance culture, and leveraging the trust and legacy associated with the LIC brand to build enduring investor relationships.

### **What differentiates LIC Mutual Fund from its peers in terms of philosophy and approach to wealth creation?**

Our differentiation lies in a long term, research driven investment philosophy that emphasizes prudence, consistency, and discipline. As an organization associated with a legacy institution like LIC, we naturally adopt a measured approach toward risk while remaining aligned with growth opportunities. Our investment processes are designed to navigate market volatility and economic cycles with a focus on sustainable wealth creation.

### **How do you view the current macroeconomic environment and its impact on equity and debt markets in India?**

India's current macroeconomic environment reflects a constructive but differentiated outlook across asset classes, albeit with elevated near term risks. Domestic growth remains resilient, supported by stable macro fundamentals, improving savings intermediation, and sustained household participation in financial assets; however, the global backdrop has become more precarious due to ongoing geopolitical conflicts. Prolonged war related

uncertainty has the potential to push up crude oil prices and exert pressure on the rupee, which could translate into higher imported inflation, tighter financial conditions, and a temporary slowdown in discretionary consumption and corporate margins. In equities, the growing dominance of systematic domestic inflows has improved market depth and reduced sensitivity to episodic foreign portfolio flows, implying that market corrections are more likely to be earnings and valuation driven rather than purely liquidity driven, even in a volatile global environment. In debt markets, while the carry environment remains favourable across short to medium maturities, duration positioning needs to be calibrated carefully, as policy normalisation is gradual and global rate movements, currency pressures, and commodity led inflation risks can still influence the yield curve. Overall, the macro backdrop calls for a disciplined, risk aware approach i.e. staying invested in equities through cycles while using active duration management and prudent allocation strategies to navigate interest rate and inflation risks in fixed income.

### **How is LIC Mutual Fund evolving its product portfolio to cater to changing investor needs?**

Investor needs today are increasingly goal oriented, time horizon driven, and risk aware, and LIC Mutual Fund is consciously evolving its product portfolio to reflect this shift. We continuously review and refine our offerings to remain aligned with changing investor preferences, regulatory frameworks, and market realities, while maintaining a balanced presence across asset classes. A key pillar of this evolution is our focus on accessibility and disciplined investing. SIP of small denominations is designed to make investing simple and inclusive by allowing investors to start with small, manageable amounts, thereby lowering entry barriers and encouraging early participation, particularly among first time and young investors. By combining affordability with the power of systematic investing, SIP of small denomination reinforces long term financial discipline and supports gradual wealth creation. Overall, our approach is to build a relevant, scalable, and investor centric product suite that promotes prudent portfolio construction, deepens financial inclusion, and enables investors to participate meaningfully in India's long term growth journey.

### **How is LIC Mutual Fund contributing to financial inclusion and expanding its reach beyond metro cities?**

Financial inclusion is central to our mandate, and we are executing it through scale, access, and education. LIC Mutual Fund is expanding beyond metros via a growing on ground network, deeper

B-30 coverage, and partnerships with channel partners. We are complementing this reach with multilingual investor awareness sessions, and a single presentation standard for all outreach so that first time investors receive consistent, high quality guidance. Our digital stack comprising of paperless onboarding, SIP/STP automation, and self serve journeys reduces friction for smaller ticket investors, while curated programs for women and young earners build confidence and long term discipline. The objective is clear: broaden participation, improve financial literacy, and convert awareness into sustained, responsible investing across Tier 2 and Tier 3 India.

### **How is technology reshaping the mutual fund industry, and how is LIC Mutual Fund leveraging digital platforms?**

Technology is increasingly shaping every layer of the mutual fund ecosystem—from investor onboarding and servicing to fund management and regulatory compliance. At LIC Mutual Fund, we are leveraging digital solutions to enhance accessibility, operational efficiency, and the overall investor experience. Our LIC MF Investor App enables seamless transactions and portfolio access, while the LIC MF Partner App serves as a single, integrated platform for our distribution partners to manage investor related activities efficiently. At the same time, we remain focused on robust data security, system resilience, and smooth integration across platforms. Importantly, our digital initiatives are complemented by human engagement, ensuring that investors continue to receive personalised support wherever personal interaction adds value.

### **If you had to sum up LIC Mutual Fund's promise to investors in one line, what would it be?**

"To be a trusted partner in wealth creation and a mutual fund of choice."
