

INDIA'S FRAGILE GASONOMY

India has long been known for its massive appetite for imported gas. But as the conflict between Israel-US and Iran escalates, India's reliance on imported energy has come to haunt its economy. The real concern lies in a narrow chokepoint—the Strait of Hormuz

DANGEROUS DEPENDENCE

India relies heavily on imported gas. The Iran conflict shows that has strained the economy. At the heart of the problem is a narrow but critical chokepoint—the Strait of Hormuz
