

WHERE IS THE MONEY GOING?

Between FY20 and FY25, the number of unique equity investors exploded from 31 million to over 110 million. Indian households have realised that FDs do not build wealth and are shifting to equities and investment funds

RBI PRESSURE

When RBI cuts the repo rate, interest rates on deposits are slashed further, making them even less attractive

THE BIG QUESTION

BANKS ARE RAISING LONG TENURE FD RATES TO FIGHT THE DEPOSIT CRUNCH. BUT IF THEY FAIL, CREDIT WILL DRY UP AND THE ECONOMY SLOW DOWN

IN A WORLD WHERE EVERYONE WANTS TO MAKE A QUICK BUCK, THE SAFE BANK DEPOSIT IS FACING ITS TOUGHEST COMPETITION YET

BUT WILL HIGHER INTEREST RATES BE ENOUGH TO LURE DEPOSITORS BACK, OR HAVE THEY MOVED ON FOR GOOD?
