POWERING DECISIONS AT SCALE

From digital loans to health insurance claims, Perfios is building a global decision-making platform

BY ANAND ADHIKARI

S **EVENTEEN YEARS AGO,** when digital lending was still new, the challenge banks faced was fragmented or unstructured data sets. As a result, customer onboarding for loans or deposits was a painfully slow process.

At a time when the entire industry was grappling with this challenge, an entrepreneurial idea began to take shape in Bengaluru. Perfios' founders—V.R. Govindarajan, its Co-Founder & Executive Chairman, and Debasish Chakraborty, Co-Founder—believed that the biggest bottleneck in the future of finance would not be capital, but decision-making. That idea led to the birth of Perfios, a software-

as-a-service company.

Fast-forward to today, Perfios Software Solutions has the tools for digitisation, reducing paperwork, faster identity checks and using AI to deliver insights that support better lending and risk decisions.

The numbers speak for themselves—Perfios today powers nearly 90% of India's digital loans and serves 1,100 plus financial institutions across 20 global markets. The platform processes 75 million-plus bank statements, 3 trillion loan applications and 1.5 trillion API requests annually. It all translated into a revenue of \$78.34 million, with an Ebitda of \$18.5 million and a net profit of \$12.21 million in FY25.

For those reasons, it has been picked as the winner in the Fintech

GROWING STRONG

Perfios provides end-to-end solutions from loan application to fraud detection

The fintech firm is expanding into the healthcare sector

Its footprint isn't limited to India; it has expanded to close to two dozen countries

Perfios processes real-time transactions across every major banking channel, including Mastercard, Visa, RuPay, UPI, and other commonly used payment rails

It is expected to launch an IPO with a valuation of over \$1 billion
