balance of FY24 and FY25); NIM: total interest income minus total interest expenses as a percentage of average interest earning assets; penalties imposed by the RBI during the year.

Capital adequacy and liquidity coverage: Capital adequacy ratio: Capital-to-risk weighted assets ratio for FY25; Tier-I capital: total of equity capital and disclosed reserves; liquidity coverage ratio: ratio of high-quality liquid assets (HQLA) to total net cash outflows over the following 30 calendar days.

Final Scoring and Rating

A score was assigned for each bank on each of the 36 sub-parameters (39 for foreign banks), based on their ranks. The score under each parameter was

then multiplied by the parameter's weight to arrive at the final score. The results were aggregated to arrive at the final rankings based on the total score.

Banks not considered

In total, 35 banks were not considered for the survey in FY25 due to mergers, liquidation, non-availability of annual reports in public domain for FY25 and foreign banks with balance sheet size of less than ₹25,000 crore.

QUANTITATIVE AWARDS

For rankings based on pure financial performance, data was taken from published annual reports of NBFCs for FY22 to FY25. The survey included 26 non-banking finance companies (NBFCs) including housing finance companies (HFCs), which were further divided into two sub-groups:

Group I: Upper layer NBFCs—11 NBFCs out of 15 classified in the upper layer (NBFC-UL) by the RBI. One classified as a core investment company and three involved in mergers in the last three years were not considered.

Group II: HFCs with a balance sheet size of ₹10,000 crore or more as on March 31, 2025 (including 3 HFCs in the upper layer).

The ranking process

NBFCs were judged on three parameters—growth, size and strength—divided into 29 sub-parameters for upper layer NBFCs and 28 sub-parameters for HFCs:

Growth: There were six sub-parameters in this category, which included YoY growth in
