

Payments: An Integral Part of Financial Empowerment

In the quest to create an inclusive financial ecosystem, India is forging an agile payments ecosystem that reaches every corner of the nation. Ushering in a new era of banking in India, Hitachi Payment Services is pioneering groundbreaking solutions like India's first Cash Recycling Machine (CRM) on an Android™ platform, enabling QR Code-based Unified Payments Interface (UPI) cash deposit and cash withdrawal, the first upgradable ATM that can swiftly convert into CRM, and a comprehensive Merchant Platform to bring thousands of merchants into the digital ecosystem.

72,000+ ATMs

Under management

75% of 10,300+ WLAs

White Label ATMs present in semi-urban and rural locations

2.3 Million+

Point of Sale machines under management

*Nos as of October 2024

From seamless cash management to offering a complete UPI stack, Hitachi Payment Services is bringing end-to-end payments and commerce solutions under one roof, fortifying India's globally

inspiring payments evolution and financially empowering millions with access to banking services, anytime and anywhere.

E-Education: Empowering Minds, Nurturing Futures

A new educational paradigm is emerging in India that places students at the centre of the learning experience, addressing physical, emotional, and intellectual dimensions for holistic development. Hitachi MGRM Net, a Hitachi Group Company, is driving the digital transformation of education with its innovative MStar™ Applications. These state-of-the-art e-Governance systems redefine the learning experience by providing personalised learning pathways, real-time insights into student performance, and proactive interventions that enhance the overall educational journey. Through distinguished projects like the Unified Automation System in Odisha, serving 25 million users, and the Vidya Samiksha Kendra in Meghalaya, monitoring 15,000 schools, Hitachi MGRM Net is making top-tier education accessible even in the most remote areas of India, empowering over 33 million students to thrive in an inclusive, equitable educational landscape.

E-Healthcare: Bridging the Gap from Illness to Wellness

By harnessing the power of digital innovation, fostering collaborations with stakeholders, and putting compassion at the forefront, Hitachi is progressing to establish last-mile connectivity with patients, placing them at the heart of the healthcare ecosystem.

Hitachi MGRM Net's pioneering MStar™ platform exemplifies this commitment, offering an integrated approach that connects patients, healthcare providers, and government systems into a unified digital network. Through initiatives like the MStar™ Telemed Platform and Lifecare Mobile Hospital, Hitachi MGRM Net is revolutionising remote healthcare delivery, ensuring that even the most underserved populations benefit from timely, high-quality medical services.

Information Technology: Forging a Safer Digital Future

India's IT sector is experiencing an unprecedented surge and Hitachi is playing a pivotal role in shaping the future of India's IT landscape. GlobalLogic, a Hitachi Group company, leads the charge in purposeful innovation and intelligent engineering, helping companies across the globe reimagine their digital products and experiences. Meanwhile, Hitachi Systems India offers advanced cybersecurity solutions, safeguarding digital assets in an increasingly interconnected world. Additionally, Hitachi Vantara provides robust data infrastructure services that support organisations in harnessing the full potential of their data.

Backed by breakthroughs in innovation by the R&D Centre, Hitachi India, Hitachi is connecting every citizen with technology, digitally empowering them to access the tools and knowledge they need to thrive in the digital age.

As the nation marches toward a \$5 trillion² digital economy by 2027 driven by Digital India, Make in India, and Aatmanirbhar Bharat, Hitachi remains steadfast in its commitment to accelerating India's growth through Digital and Green Technologies and Innovation capabilities. Together, India and Hitachi are charting a transformative path toward an inclusive, sustainable, and empowered future.

“At Hitachi India, we stand resolute in our mission to pioneer Digital and Green Innovations that not only enhance lives but also safeguard the planet for generations to come. Together with India, we are scripting a narrative of progress that resonates across the globe, weaving technology and compassion into the very fabric of a resilient and sustainable society.”

Dr. Bharat Kaushal

Corporate Officer, Hitachi, Ltd. and
Managing Director, Hitachi India
