

India's global leadership era to begin in 2028

Chief Minister Chandrababu Naidu addressed a CII special session on Green Industrialisation, emphasising Andhra Pradesh's human resources and entrepreneurial spirit. He elaborated on the ten guiding principles of the Swarnandhra-2047 Vision roadmap and unveiled plans for a Global Leadership Center in Amaravati. The state's commitment to green energy and hydrogen production was a central theme of the discussions.

Sri Chandrababu Naidu,
Hon'ble Chief Minister, Andhra Pradesh

Addressing prominent Indian industrialists, including Tata Group Chairman N. Chandrasekharan, Naidu referenced a Bloomberg analysis predicting that by 2027, India will lead the world in contributing to incremental GDP growth.

"From 2028, India will enter a new phase. This is inevitable. India will be the only country with a demographic dividend for the next 20 to 25 years," Naidu said.

Emphasizing India's position on the global stage, Naidu highlighted that Indians are widely regarded as one of the most adaptable and respected communities worldwide. He expressed confidence in India's ability

to excel and contribute to global progress.

The Chief Minister also praised Prime Minister Narendra Modi for his visionary leadership and clear vision for India's future, referencing the PM's "Viksit Bharat - 2047" vision. He confidently predicted that in the next 22 years, India will rise to become either the number one or two nation globally.

Naidu discussed the planned Global Leadership Centre (GLC) in Amaravati, which aims to develop future leaders equipped to tackle emerging global challenges. Additionally, he outlined plans to turn Andhra Pradesh into a hub for organic farming, with an emphasis on eliminating chemical fertilizers

and pesticides while ensuring agricultural product traceability and certification.

He also encouraged industrialists to collaborate with the government to meet Prime Minister Modi's target of double-digit economic growth. Naidu warned that failing to reach this goal could impede India's progress toward becoming a middle-income nation. Furthermore, Naidu stressed the importance of effective population management and urged wealthier citizens to support the underprivileged through the Public-Private-People Partnership (PPPP or P4) model, aimed at eradicating poverty.

"Together, we will work to make India poverty-free, provide equal opportunities, and improve living standards for all," he concluded.

Success and Optimism

The Chief Minister's visit has laid the groundwork for significant investments and strategic partnerships. Several companies have committed to visiting Andhra Pradesh to explore investment opportunities further, reinforcing the state's position as a global investment hub. This visit has set the stage for exciting collaborations and investments that will further solidify Andhra Pradesh's position as a global investment powerhouse in the coming years.

Nara Lokesh Outlines Andhra Pradesh's Bold Vision For Growth & Innovation

Nara Lokesh, Andhra Pradesh's Minister for Human Resources Development, IT and Electronics and RTG, shared his vision for the state's future. Speaking on the sidelines of the World Economic Forum 2025 in Davos, Switzerland, the young minister discussed the 'Brand AP' initiative, aimed at positioning Andhra Pradesh as a global investment hub. He highlighted the state's proactive policies, infrastructure, and focus on employment-driven industrial growth. Part of a high-powered delegation led by Chief Minister N Chandrababu Naidu, the minister discussed the state's key agenda, including meetings with global industrial leaders, the establishment of AI and data centers, and plans for an AI University in Andhra Pradesh. Lokesh also highlighted collaborations with tech giants like NVIDIA and Google, emphasizing the use of AI for good governance and intelligent industries. Additionally, Lokesh sheds light on Andhra Pradesh's green hydrogen ambitions, education initiatives, and its efforts to foster gender parity in leadership roles.
