BVLGARI SERPENTI LADY SOLOTEMPO BVS 100

► TO CELEBRATE THE 'Year of the Snake', Bvlgari reimagined its iconic Serpenti Seduttori and Serpenti Tubogas references with an all-new in-house automatic movement—the Lady Solotempo BVS 100. At just 19 mm in diameter and 3.90 mm in thickness, the Lady Solotempo weighs only 5 grams, yet boasts a 50-hour power reserve. All the Serpenti models powered by the Lady Solotempo BVS100 have transparent sapphire crystal case-backs. There are seven models to choose from, ranging from the two high jewellery references to everyday stainless steel and two-tone models
