

## BALANCING THE BOOKS

*Tuhin Kanta Pandey, Finance and Revenue Secretary*

» Pandey said India remains concerned about the threat to global growth and trade from the proposed tariff hikes by the US administration. Elaborating on the Budget, Pandey said it is non inflationary and the fiscal deficit target of 4.4% for FY26 is “within our range”

## INDIA'S AI FOOT FORWARD

*Ashwini Vaishnaw, Minister of Railways and Minister of Information and Broadcasting*

» With the Chinese AI model DeepSeek creating ripples globally, Vaishnaw said India's foundational AI model should be ready by the end of the year. Some of the Indian firms have made really powerful models, he said, adding, “We have empanelled 18,000 graphic processing units and 10,000 are already available”. He also called upon a change in mindset and the need for India to become a product nation from being a service provider
