

Oil India & NRL Showcase Prowess in Energy Innovations at India Energy Week 2025

India Oil India Limited (OIL), a Maharatna CPSE and Numaligarh Refinery Limited (NRL), a leading energy company of India, made a telling impact at the world's second-largest energy conference- India Energy Week (IEW) 2025, held from February 11 to 14, 2025, New Delhi. The theme "Earth to Energy," at the OIL-NRL pavilion was more than an exhibit - an immersive experience that highlighted their commitment to harness energy responsibly while driving India's energy security and sustainability to meet the growing demand of the world's third-largest energy consumer.

Dr Ranjit Rath
Chairman & Managing Director
Oil India Limited

"India Energy Week 2025 is a pivotal platform for Oil India Limited to engage with global energy leaders, explore new business opportunities, and strengthen industry partnerships. As one of the oldest oil and gas companies and the pioneer of hydrocarbon discovery in Asia, Oil India has been at the forefront of India's energy journey. As we navigate the evolving energy landscape, collaboration and innovation remain at the core of our growth strategy. At OIL, we are committed to enhancing energy security, driving technological advancements, and contributing to India's net-zero ambitions. IEW 2025 provides us the opportunity to showcase our capabilities, exchange knowledge, and forge strategic alliances that will shape the future of energy. We look forward to meaningful discussions that will drive progress and create sustainable value for all stakeholders. Key Strengths of OIL Showcased at IEW 2025:

1. Multilateral Drilling - A First for India!

OIL India is set to drill 3 onshore wells from a single plinth—a first in the country! With a ₹300 Cr CAPEX, this project is a leap towards efficiency & innovation in exploration.

2. Andaman Offshore Exploration - Creating New Frontiers!

With a ₹2500 Cr CAPEX, OIL India is drilling in Andaman Offshore, targeting a 3500m well depth in 100m water. The first well at 2800m is already drilled, paving the way for energy security & discovery!

3. Digital Real-Time Monitoring - Cloud-Powered Innovation!

OIL India brings India's first cloud-based Real-Time Monitoring Center for upstream operations! With a ₹130 Cr CAPEX, we're revolutionizing efficiency & data-driven decision-making.

4. ESG Strategy Launched - Net Zero by 2040!

OIL India is committed to a Net Zero future with a ₹25,000 Cr investment by 2040! From renewables to carbon capture, our ESG roadmap ensures sustainable energy for generations.
