

Dr Nissar Ahmed
Founder Chancellor
Presidency University
Presidency Group of Institutions

A deeper integration of AI with education, whether it is in the South of the country or any other region, is certainly a must today in the domain of education.

I personally am of the opinion that any technology intervention when identified, to expedite the teaching-learning process and reduce administrative

work and bureaucracy, is welcome. The challenge for educators is when AI-generated content leads to plagiarism and academic integrity is at stake. At the Presidency Group of Institutions, we have ensured that our focus is on creating personalized, interactive and adaptive learning experiences for our students with an invasion of technology tools. Hence, a lot of time and resources is being invested in faculty training to use AI-based teaching pedagogy in the classrooms. At the same, our efforts continue to reduce administrative tasks and focus on sustainability by digitizing the entire campus. From scheduling meetings, reviews, to maintaining and managing student records, AI-powered tools for analyzing student performance, assessment tracking, resource allocation and feedback systems are completely digitized. This gives faculty members time to focus on teaching and research. In fact, the focus at the PGI is on training faculty to use AI-powered tools to generate challenging course materials, content update, assessment feedback to students, and most of all in pedagogy that sustains and builds student engagement.

Dr. Arunkumar A V
Professor and Dean
Ramaiah Institute of Management

Ramaiah Institute of Management, Bengaluru (www.msrim.in), a flagship Institute of the Ramaiah Group of Institutions, has been regarded as one of the most preferred Business schools in Bengaluru. MSRIM stands at the forefront of management education, offers a diverse portfolio of programs catering to the aspiring professionals and industry leaders. The

Post Graduate Diploma in Management (PGDM) is the institute's flagship two-year, full-time program, accredited by NBA and granted MBA equivalence by the Association of Indian Universities (AIU). With an industry-aligned curriculum, delivered by expert faculties, the program focuses on experiential learning, leadership development and multiple

specializations. The PGDM program ensures graduates are equipped with the critical thinking and problem-solving skills required in today's business landscape. Complementing this, the 18-month online PGDM offers flexibility and accessibility to working professionals and recently passed out graduates. For research-driven professionals, the Fellowship Program in Management (FPM) provides an opportunity to conduct high-end research across multidisciplinary management fields, focusing on contemporary challenges in industry, business and corporate strategy. The Institute also offers domain specific programmes such as the Post Graduate Program in Sports Management (PGPSM), Post Graduate Programs in Business Analytics (PGPBA) and Financial Analytics (PGPFA), Post Graduate Program in Digital Marketing (PGPDM). The initiative of MSRIM has been to enhance our reach to the aspirants through online and offline formats. MSRIM aims to foster innovation, industry relevance and global competencies through our focused approach on industry interactions, experiential mode of learning, disciplined learning process of business fundamentals. The alumni network offer the much needed boost in strengthening outreach with the industry. Please visit us at www.msrim.in.
