

EXPANDING HORIZONS

Advancing Coal & Lignite Operations for Energy Independence

GMDC is charting a path of resilience and growth, expanding its presence in both lignite and coal mining. With a focus on futuristic planning, we are increasing our lignite production capacity to

10 MTPA, operationalizing 6 new mines in Gujarat. Additionally, our strategic expansion into coal mining in Odisha, will further augment India's energy value chain.

- Venturing into high-demand copper mining at Ambaji, Gujarat
- Exploring the possibility of Lignite Gasification for fueling mining operations
