backgrounds, each with unique needs and aspirations. A smooth navigation across a multitude of projects concurrently further allows me opportunity to showcase my exceptional organizational, interpersonal, and communication skills.

At the heart of my responsibilities lies a steadfast commitment to driving organizational excellence. Our institution leaves an indelible impact on the lives of young minds, nurturing their dreams and empowering their potential. I am committed to creating an educational environment that fosters transformative learning, holistic growth, and resounding success. I am honored to be part of an institution that transcends boundaries and spearheads the advancement of knowledge, propelling our students towards a future of limitless possibilities.

growth of the students. We believe overall development of students is what makes them truly globally competitive and globally employable. The focus in present times is on transforming learning by rote to research based and adopting applied or practical methods of teaching. We are committed towards making a robust curriculum and the desired change in pedagogy for making students of Galgotias a cut above the rest. The ambience at the state-of-the-art Galgotias University is such that it nurtures the mind and quest for learning, translating the knowledge acquired and experience gained into a profitable venture or profession, fulfilling dreams of parents and students.

➤ **At the University what is your role in transforming education?**

My role at campus allows me to embrace the remarkable opportunity to collaborate with individuals from diverse

➤ **How is the university under your guidance working towards empowering women and taking them to the industry and the world?**

We are in the field of education, and education is the most powerful tool, it helps to gain accessibility, provide new platforms open new doors, it helps you to completely revamp your life. At the university we have various programs on life skills such as women and law, entrepreneurship, consumer rights, gender sensitization and many more, we organize awareness programs and it is these value adds that we do consistently which help the women recognize their importance in the society and the impact that they can have in the world.

➤ **What message do you have for the young and aspiring women?**

Knowledge must be the driving force, one has to consistently equip and upgrade themselves, explore opportunities, broaden horizons, read a lot as that helps one to articulate their thoughts, it makes you aware and that can really take you to places.
