

AKSHA KAMBOJ: THE POWER PROPELLING ASPECT GLOBAL VENTURES TO UNPRECEDENTED SUCCESS

It takes a nonconformist to shatter stereotypes and Aksha Kamboj, Executive Chairperson, Aspect Global Ventures, did the same as she helping her company climb the summit of success. Through resilience and resourcefulness, Aksha redefined leadership by women entrepreneurs with a unique blend of vision and ambition. Driven by intuition and intellect, Aksha ensured Aspect's rapid rise with business interests spanning several sectors. This is a testimony to her business leadership skill that emphasises the bottom line and on winning people's hearts and minds.

Take the case of Aspect's venture into the bullion business, where Aksha and her team decided to offer one consistent price, linked to the live bullion market prices, pan-India. The strategy not only attracted more customers but also built lasting customer loyalty through transparency.

In the ultra-competitive infrastructure business, Aksha's foresight ensured Aspect could leverage the business opportunity provided by the government's push for the sector. A firm believer in taking calculated risks, Aksha charted Aspect's foray into multiple segments of the infrastructure business and ensured it benefited significantly when opportunities arose.

Aksha's understanding of market dynamics is what led her to focus on sustainable designs for Aspect Realty's luxury and premium housing projects in prime areas of Mumbai. Aspect, under Aksha, has integrated modern amenities that promote eco-friendly living to appeal to en-

vironmentally conscious buyers.

Aspects' venture into the hospitality business was a result of Aksha's meticulous planning and execution allowing the group to acquire Mumbai's three top-notch restaurants. Aspect Hospitality has since then introduced new brands such as Brunch & Cake, Opa Kipos, Nom Nom Express, and Maison with a focus on unique dining experiences. The company also has plans to open Radio Bar, Nom Nom, and Akina in Hyderabad to expand its presence pan-India and across cuisines.

With Aspect Sports, Aksha took a bold leap into non-traditional areas like sports to find new revenue streams and manage risks. Through Aspect Sports, she has completely changed how grassroots sporting talent is discovered and developed. Demonstrating a keen understanding of the sports world, Aksha formed strategic partnerships and became the co-owner of the Tiigers of Kolkata, a cricket team that went on

to win the Indian Street Premier League (ISPL).

Her unique leadership style pivots around profits and growth metrics but also insists on diversity, inclusivity and empowerment. As a leader, Aksha believes a business cannot operate in exclusivity and has to positively impact its community and environment.

Aksha embodies the new breed of leadership that relies on empathy, compassion and collaboration and has always chosen authenticity over pretension. Aksha, a mother of two, is also passionate about child nutrition and women empowerment and is an ardent advocate of mindful childcare and parenting.

A leader resilient in spirit, steady in her commitment to succeed and ready to take on new challenges to shape Aspect into an unrivalled global conglomerate.
